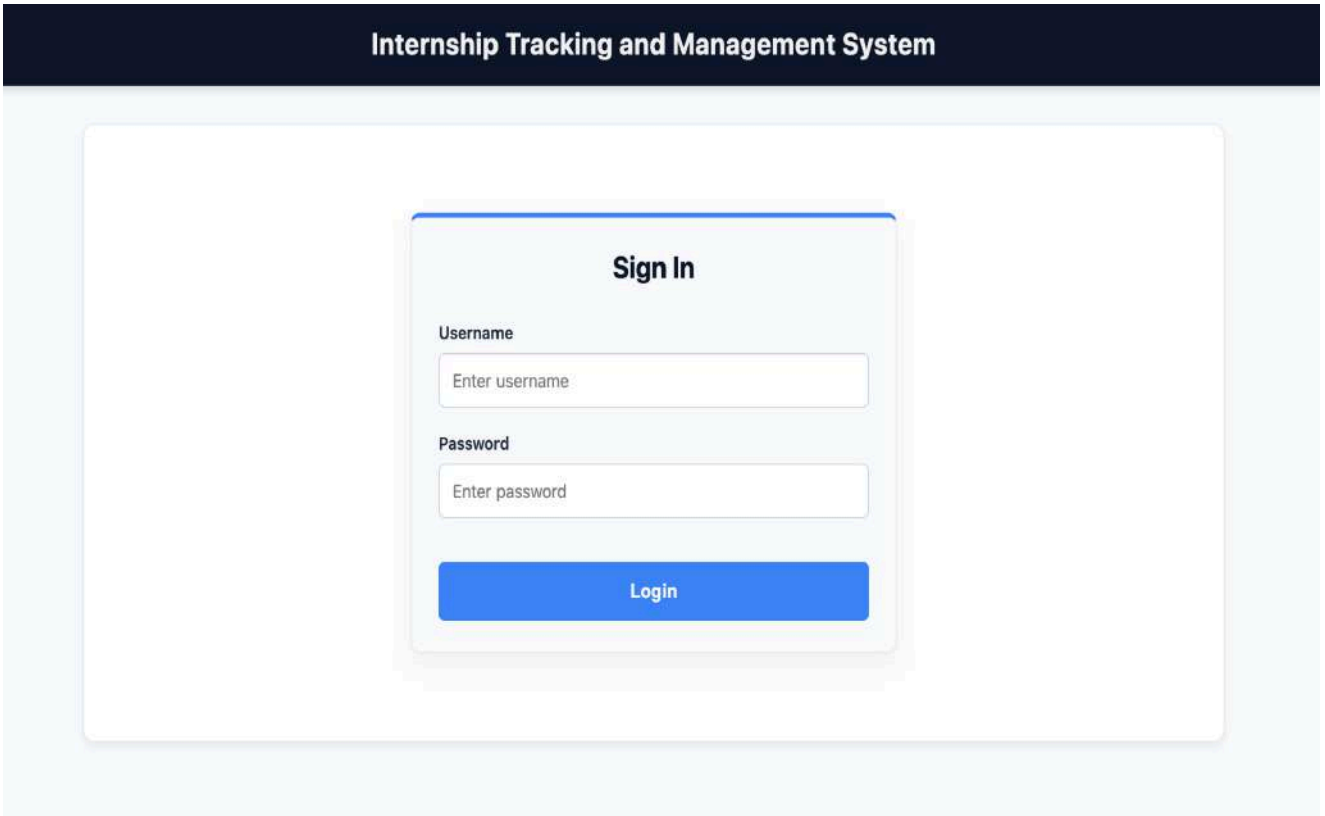
1.Login Page



Users who have previously registered for the College Internship Tracking and Management System (ITMS) Web Application must log in by:

- Entering their Username
- Entering their Password

After entering the required credentials, users must click on the “Login” button to access the system dashboard and begin using the application.

The same applies to Student, Faculty, and Admin

There are 3 different home pages available based on the role of the user:

- Student Dashboard
- Admin Dashboard
- Faculty Dashboard

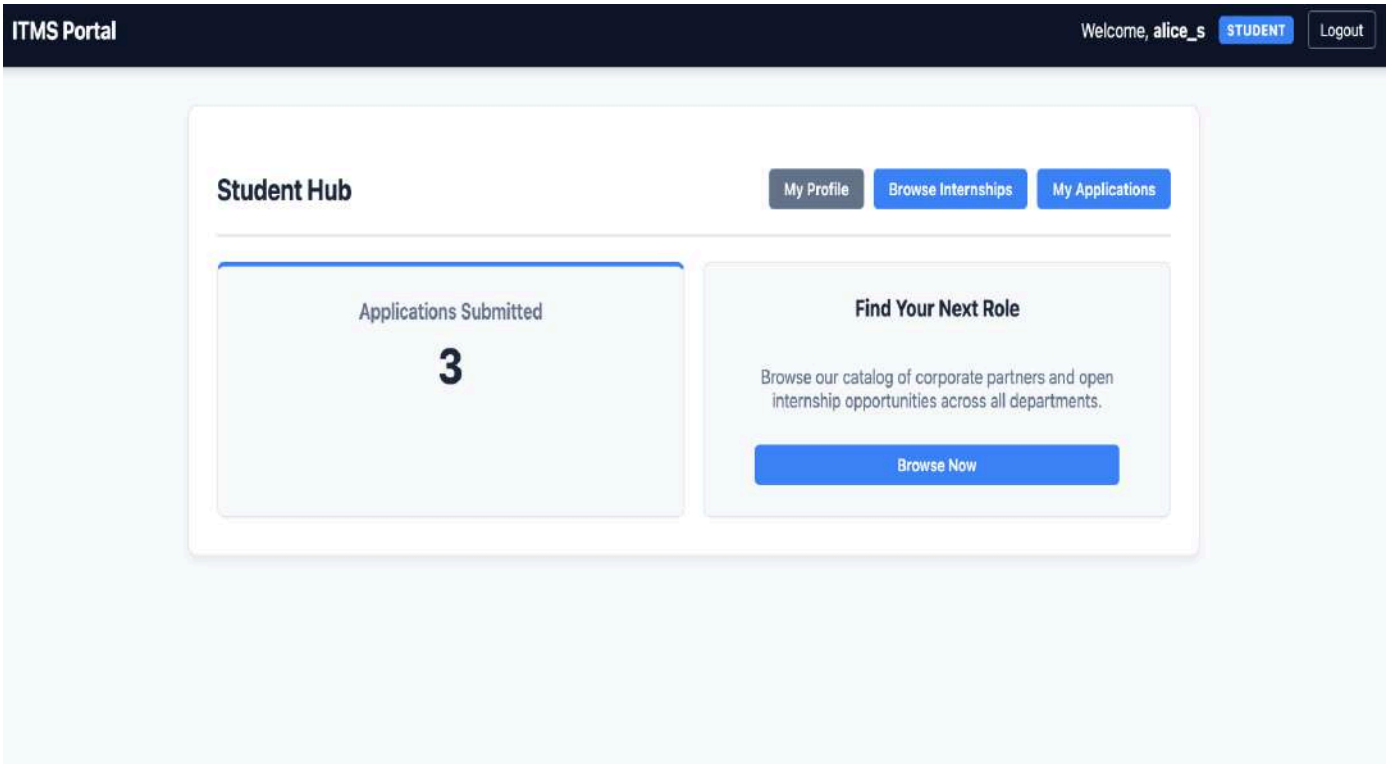
Each dashboard provides role-specific functionalities and information relevant to the user.

The home page contains a navigation bar that allows users to access different sections of the system, such as Profile, Internships, and Applications, enabling them to perform various activities efficiently.

1.Student Module

The Student Module allows students to view and apply for internships, manage their profile, and track application status.

1.1 Student Dashboard



The Student Dashboard provides an overview of important information such as:

- profile
- Applications Submitted
- Available Internships

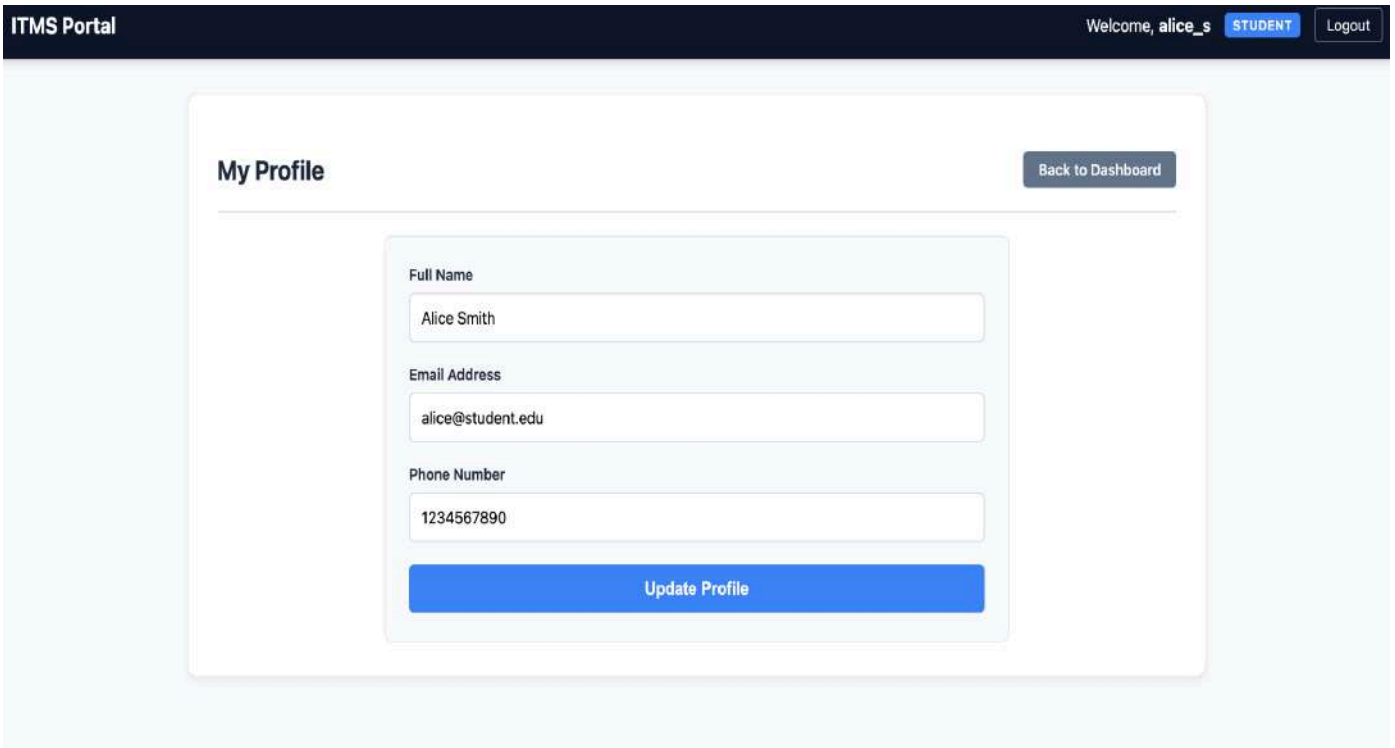
1.2 User Profile

The My Profile page allows users to view and update their personal information.

Users can edit details such as:

- Full Name
- Email Address
- Phone Number

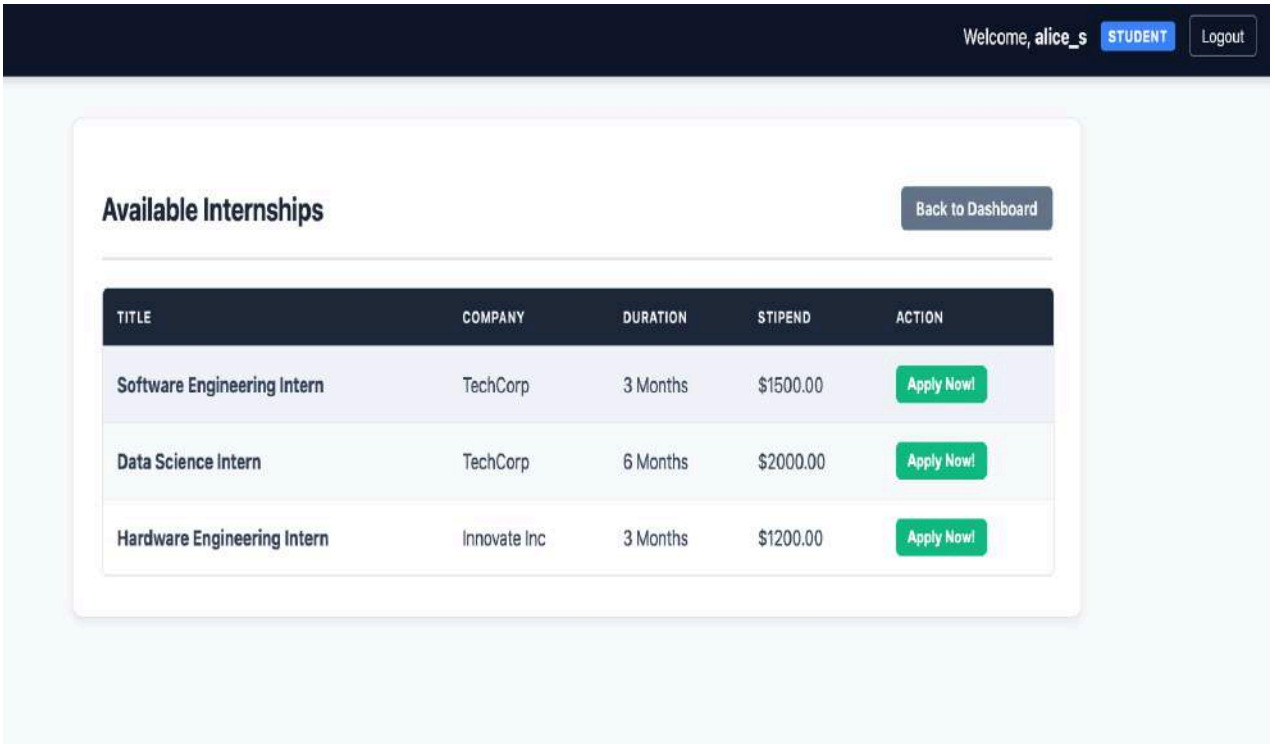
After making changes, users must click on the “Update Profile” button to save the updated information.



1.3 Browse Internship

The Browse Internships page allows students to view available internship opportunities as in their role,company,duration of internship and stipend.

Students can explore different internships and select an opportunity based on their interests. By clicking ”Apply Now” on a specific internship, users can view more details and apply for it.



If a student has applied for a particular internship, a message like this will be displayed.

You have already applied for this internship!

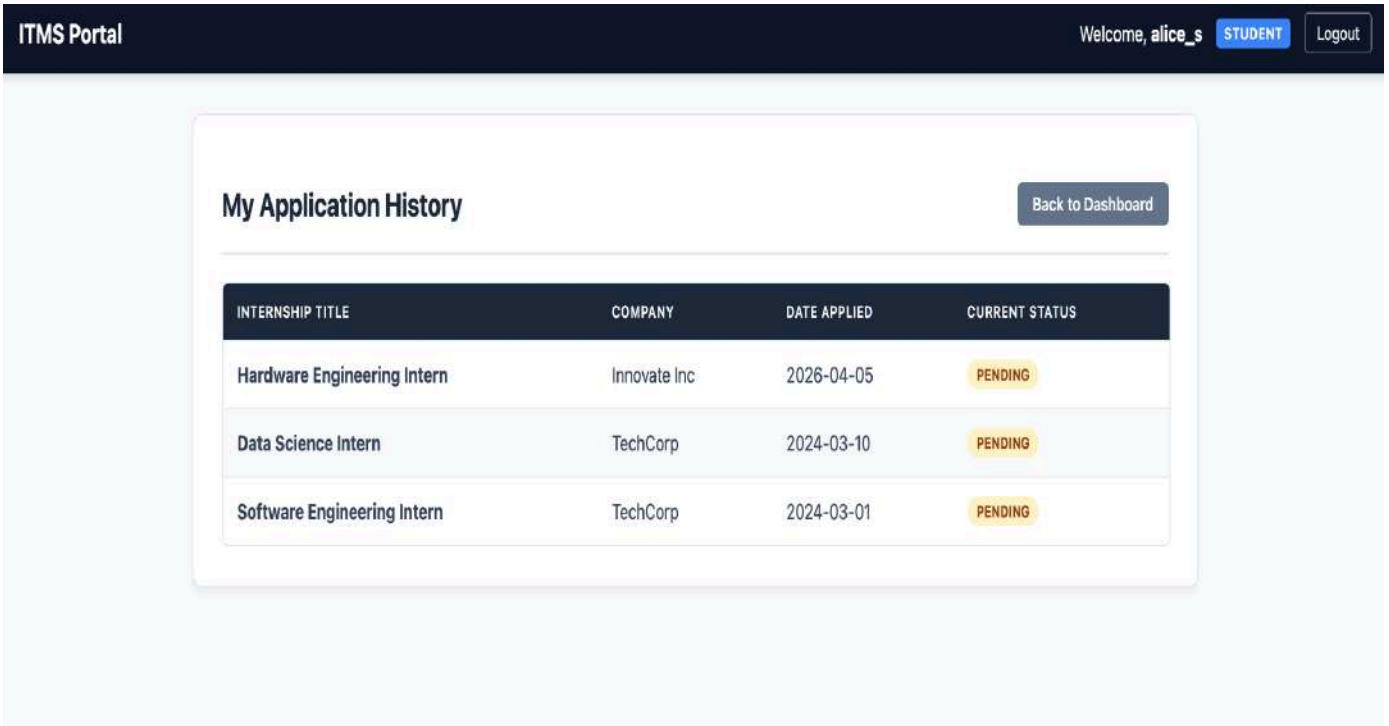
1.4 My Applications

The My Applications page allows students to view all the internships they have applied for.

This page displays details such as:

- Internship Title
- Company
- Date Applied
- Current Status

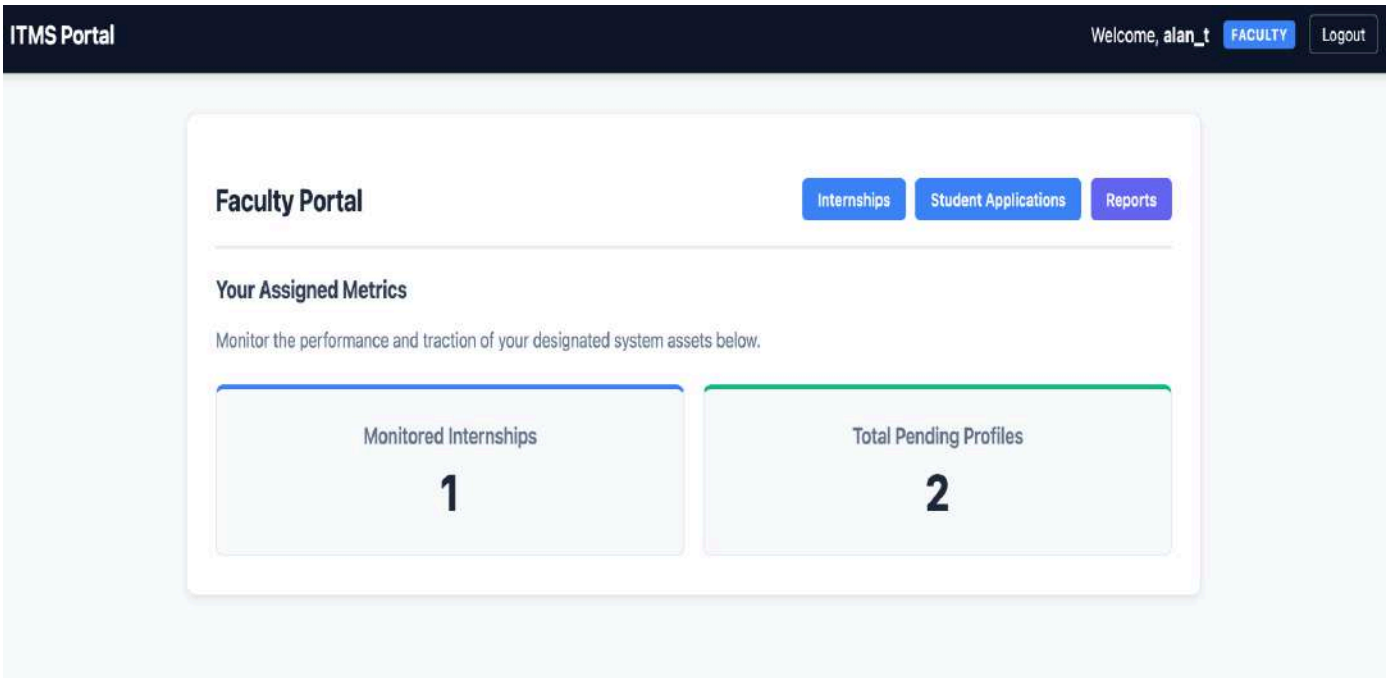
Students can track the progress of their applications, such as whether they are pending, accepted, or rejected.



2.Faculty Module

The Faculty Module allows faculty members to monitor internship activities and review student applications.

2.1 Faculty Dashboard



The Faculty Dashboard provides an overview of important information such as:

- Monitored Internships
- Total Pending Profiles

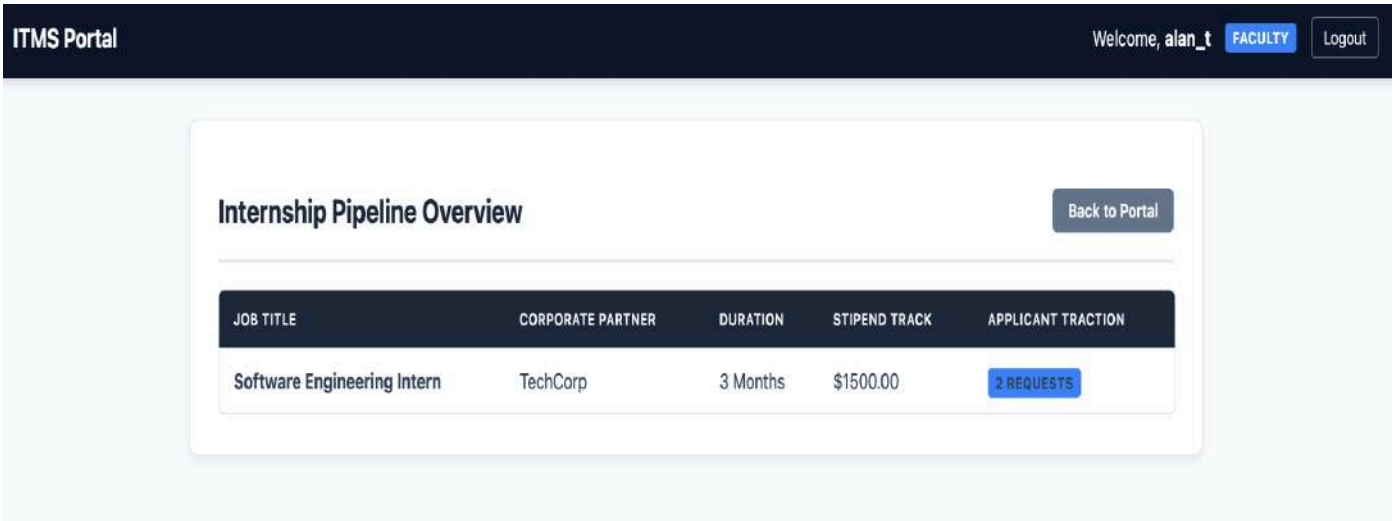
2.2 Internships

This page allows faculty members to view and monitor the internships assigned to them.

The page displays details such as:

- Job Title

- Corporate Partner
- Duration
- Stipend Track
- Applicant Traction



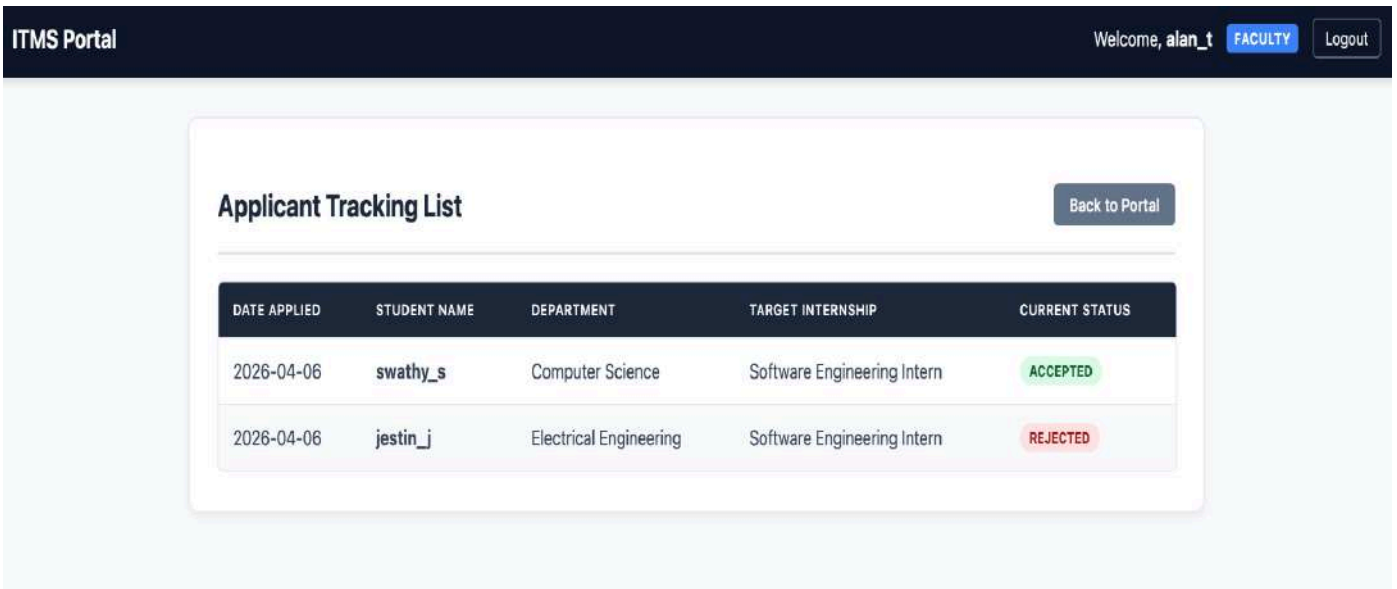
2.3 Student Applications

The Student Applications page displays the list of student applications for internships.

The page includes details such as:

- Date Applied
- Student Name
- Department
- Target Internship
- Current Status

Faculty members can review and track the status of these applications.

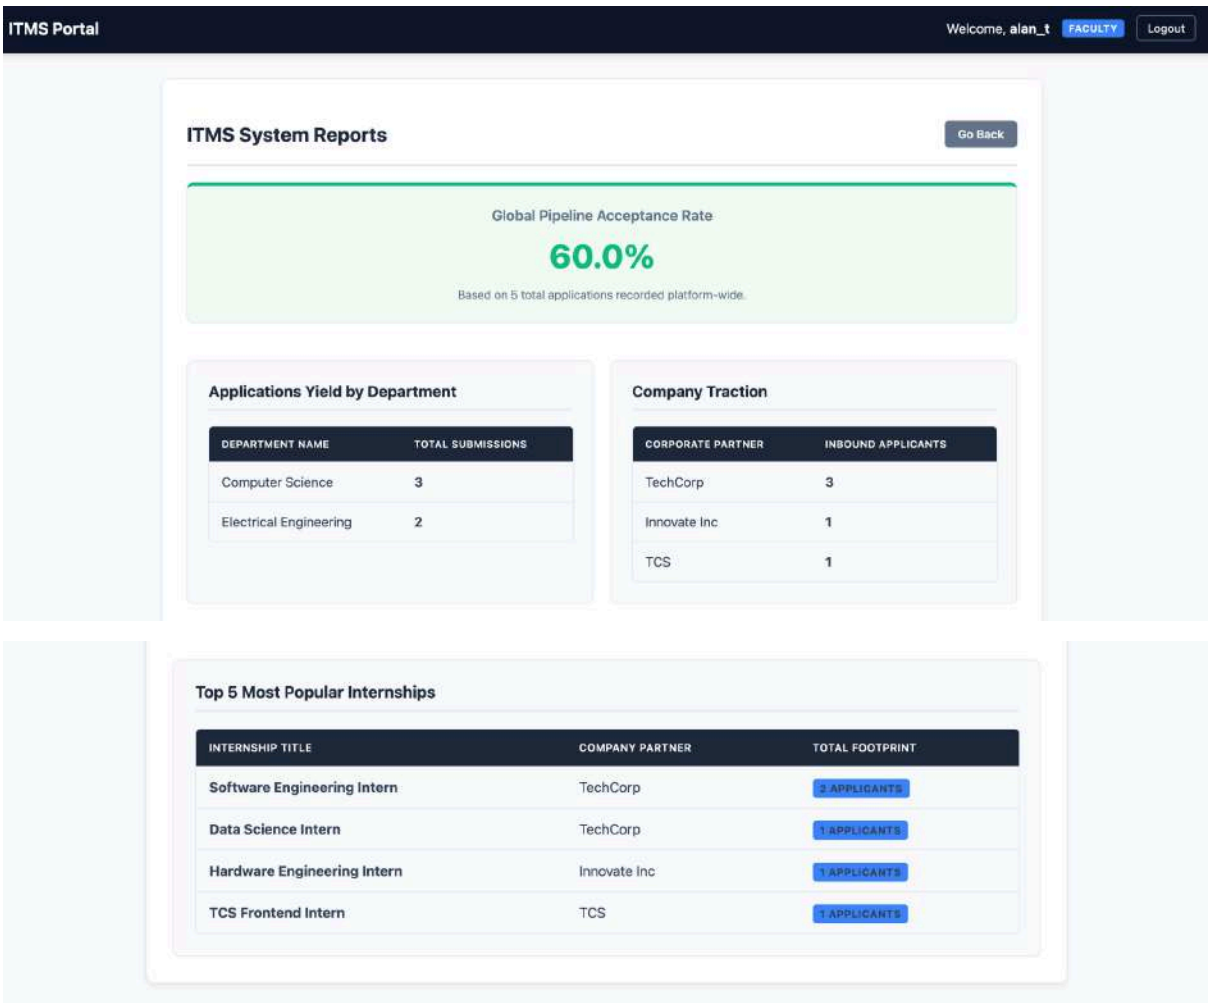


2.4 Reports

The Reports page provides insights and analytics related to internship activities across the system.

It includes the following details:

- Global Pipeline Acceptance Rate
  Displays the overall acceptance rate based on total applications.
- Applications Yield by Department
  Shows the number of internship applications submitted by each department.
- Company Traction
  Displays the number of applicants for each corporate partner.
- Top Internships
  Lists the most popular internships based on the number of applicants.



3.Admin’s Module

The Admin Module provides administrative functionalities such as managing users, internships, and system data.

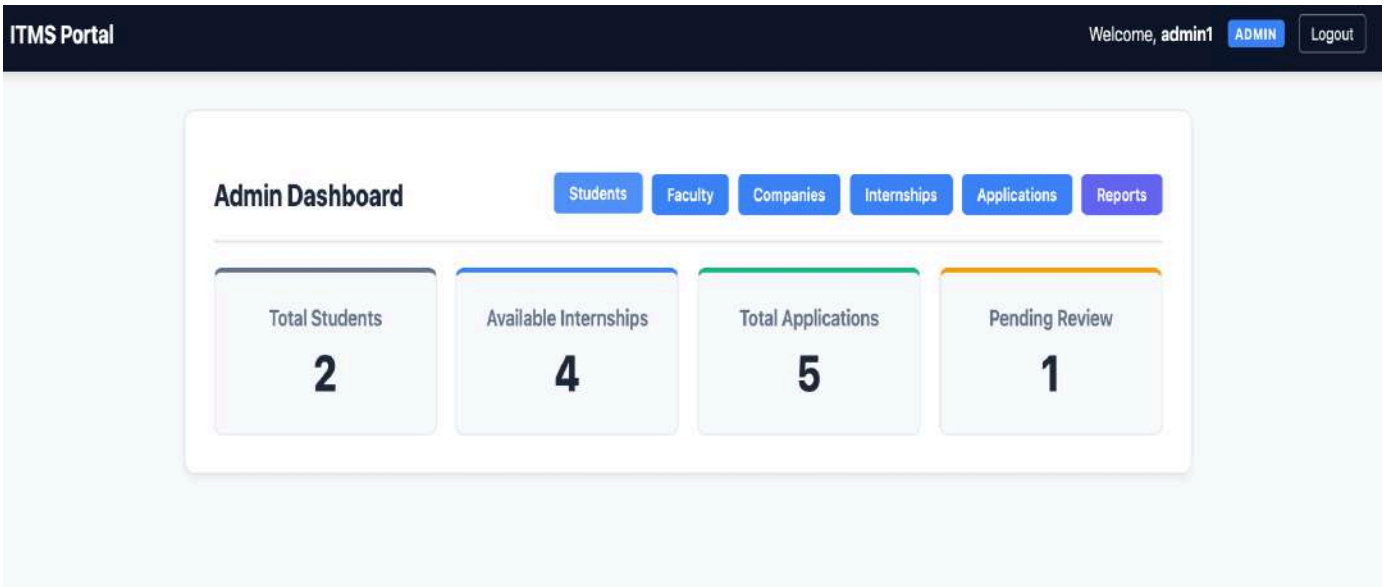
3.1 Admin’s Dashboard

The Admin Dashboard provides an overview of important system information such as:

- Total Students
- Available Internships
- Total Applications
- Pending Review

It also provides access to sections such as:

- Students
- Faculty
- Companies
- Internships
- Applications
- Reports



3.2 Students

The Manage Students page allows the admin to add and manage student details.

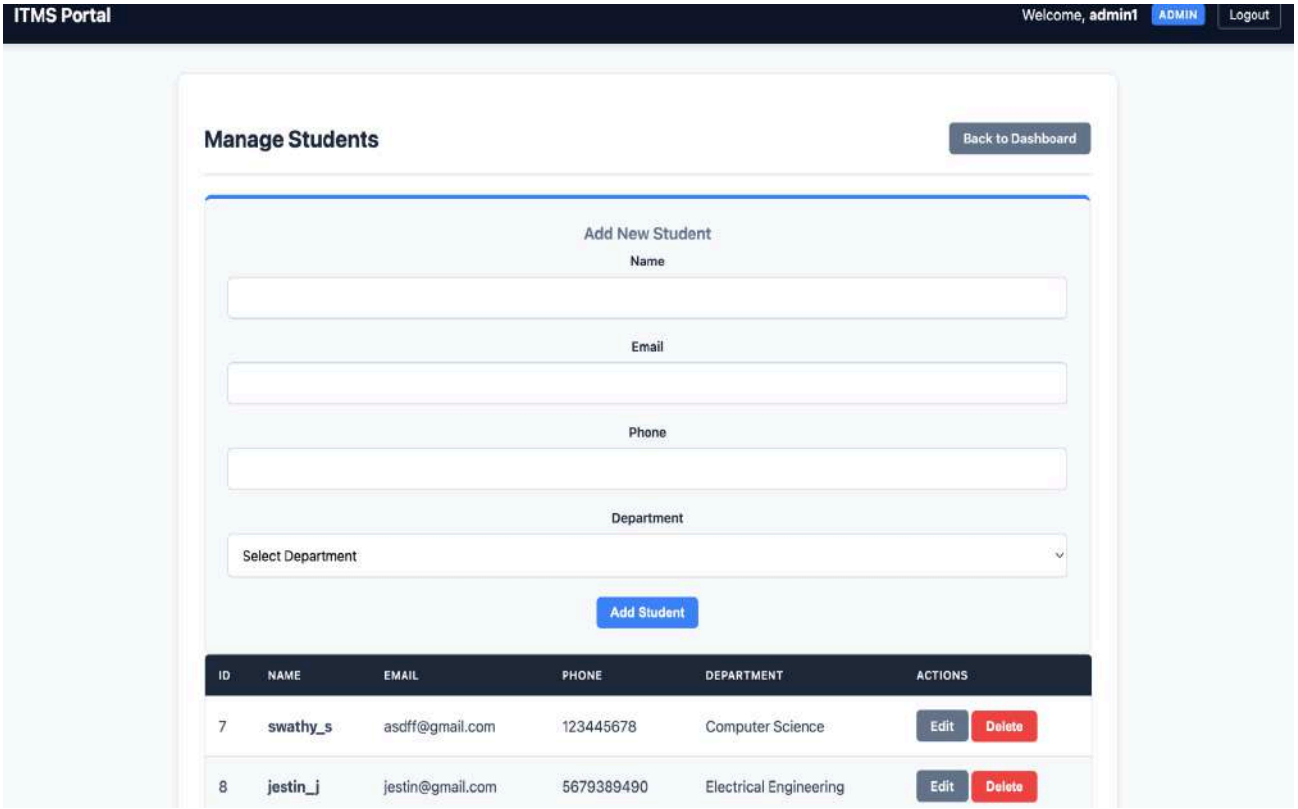
Admin can add a new student by entering:

- Name
- Email
- Phone
- Department

The page also displays a list of students with details such as:

- ID
- Name
- Email
- Phone
- Department

Admin can perform actions like Edit and Delete on student records.



3.3 Faculty

The Manage Faculty page allows the admin to add and manage faculty details.

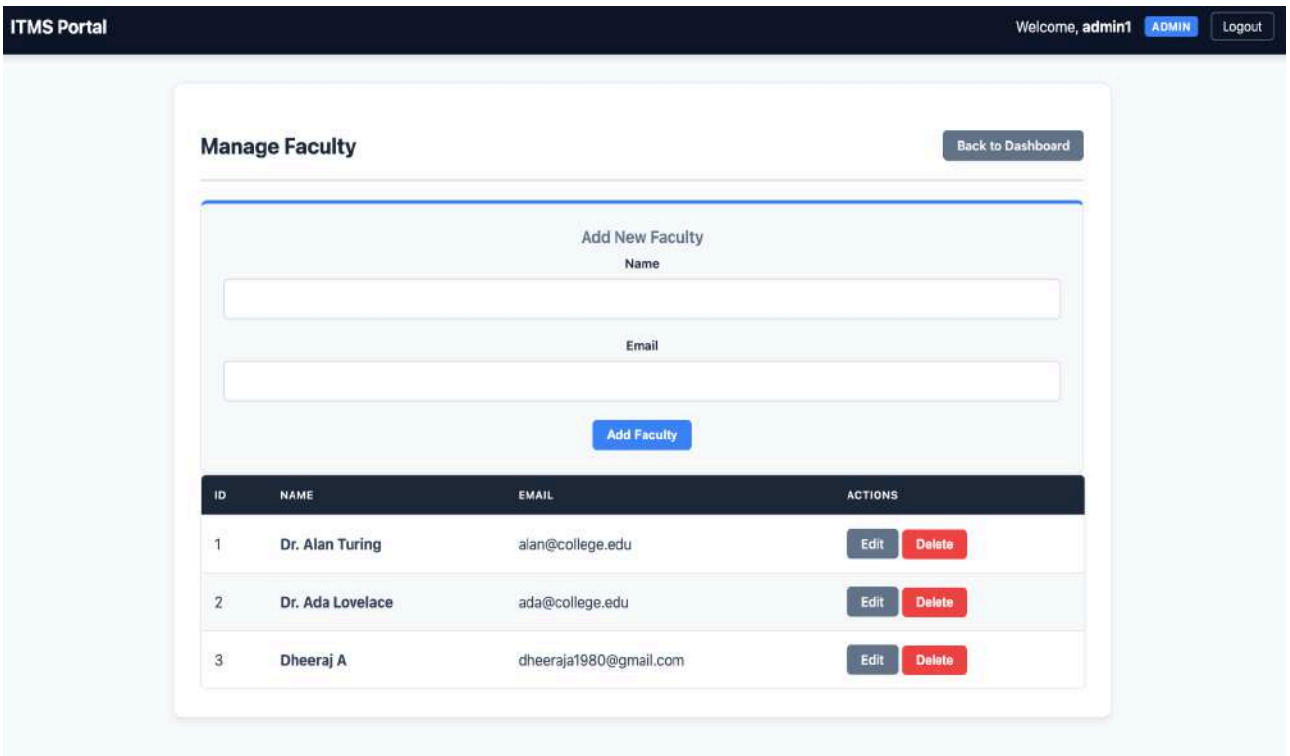
Admin can add a new faculty member by entering:

- Name
- Email

The page also displays a list of faculty with details such as:

- ID
- Name
- Email

Admin can perform actions like Edit and Delete on faculty records.



3.4 Companies

The Manage Companies page allows the admin to add and manage company details.

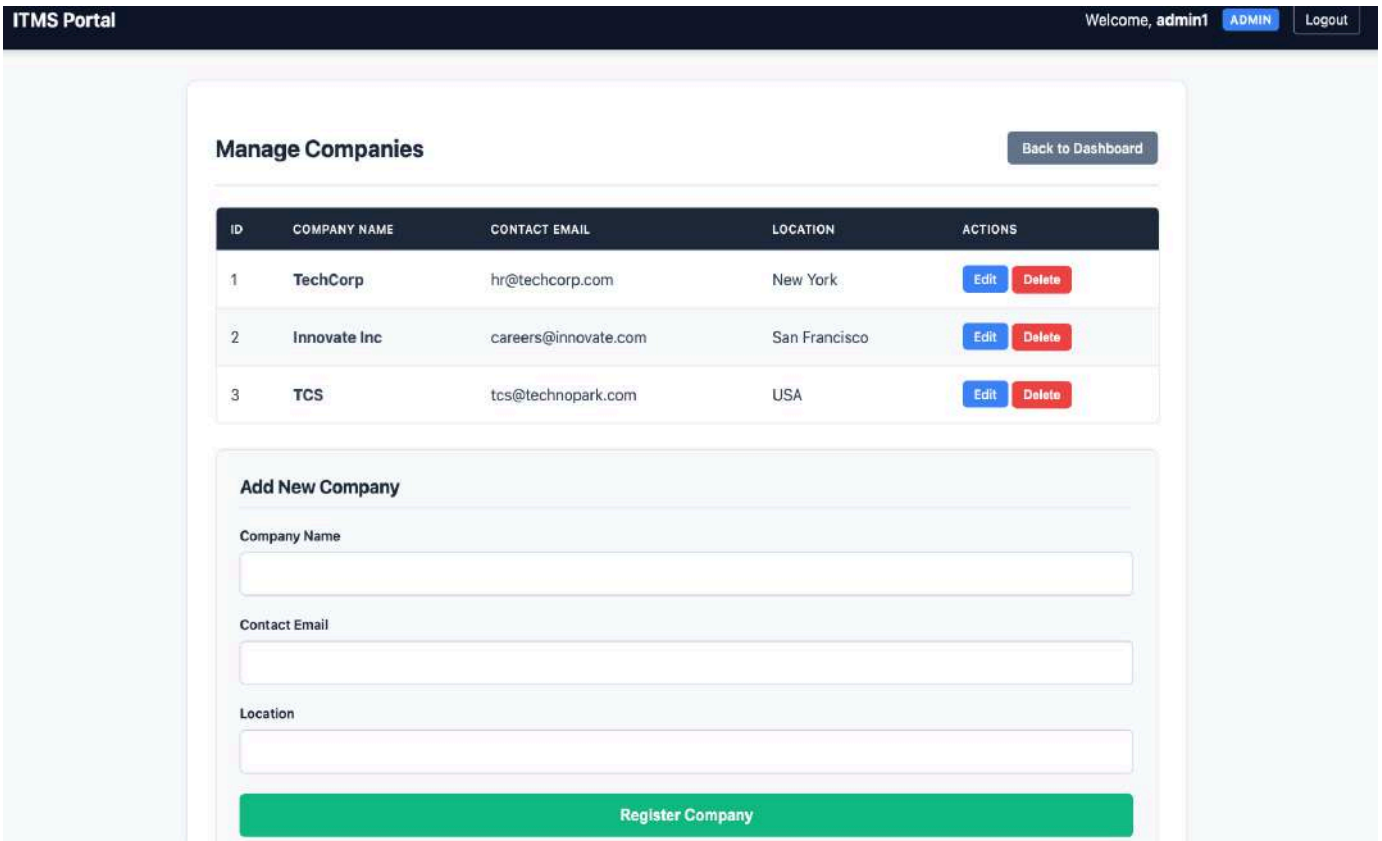
Admin can add a new company by entering:

- Company Name
- Contact Email
- Location

The page also displays a list of companies with details such as:

- ID
- Company Name
- Contact Email
- Location

Admin can perform actions like Edit and Delete on company records.



3.5 Internships

The Manage Internships page allows the admin to create and manage internship opportunities.

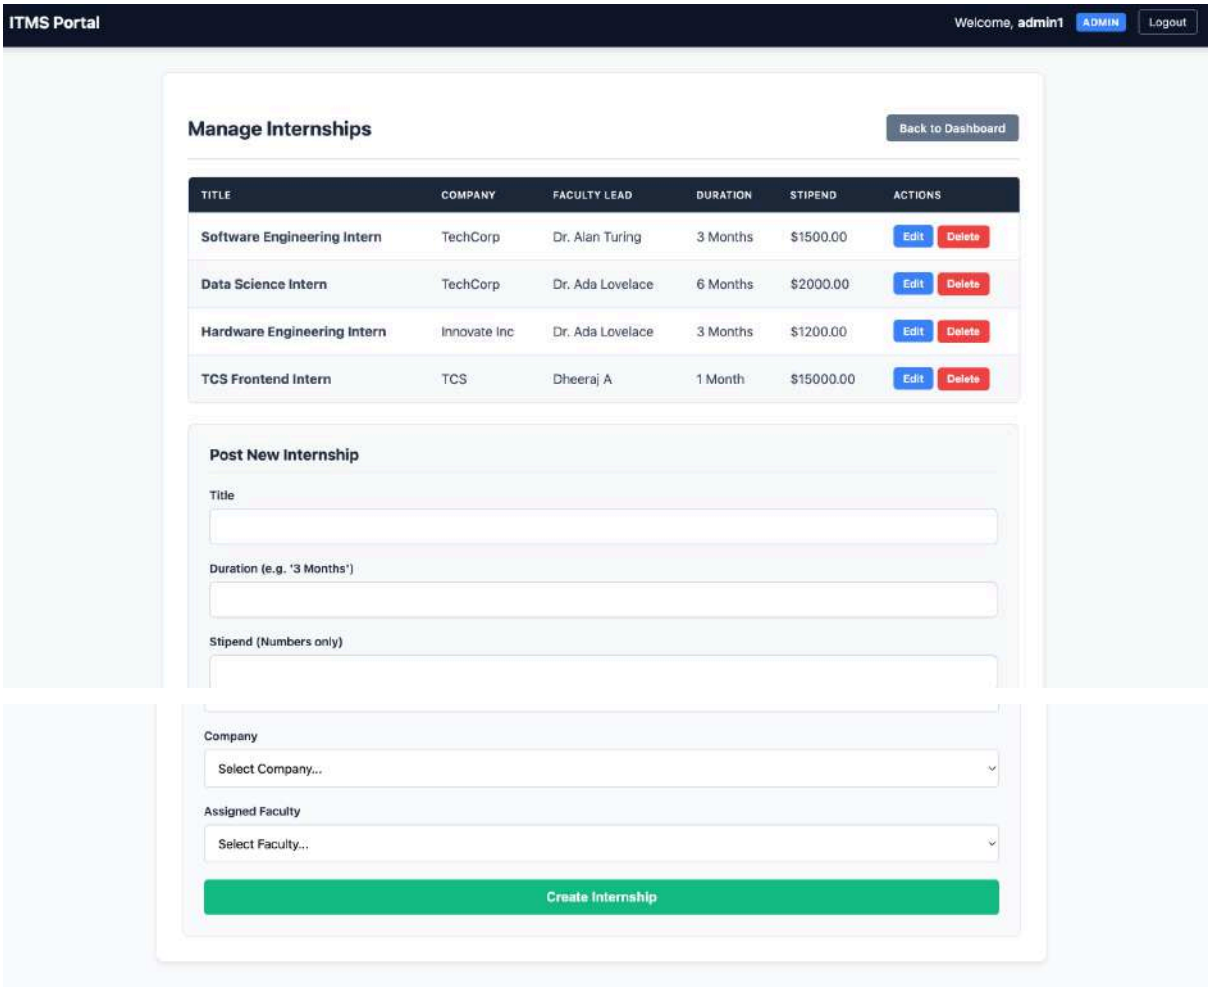
Admin can add a new internship by entering:

- Title
- Duration
- Stipend
- Company
- Assigned Faculty

The page also displays a list of internships with details such as:

- Title
- Company
- Faculty Lead
- Duration
- Stipend

Admin can perform actions like Edit and Delete on internship records.



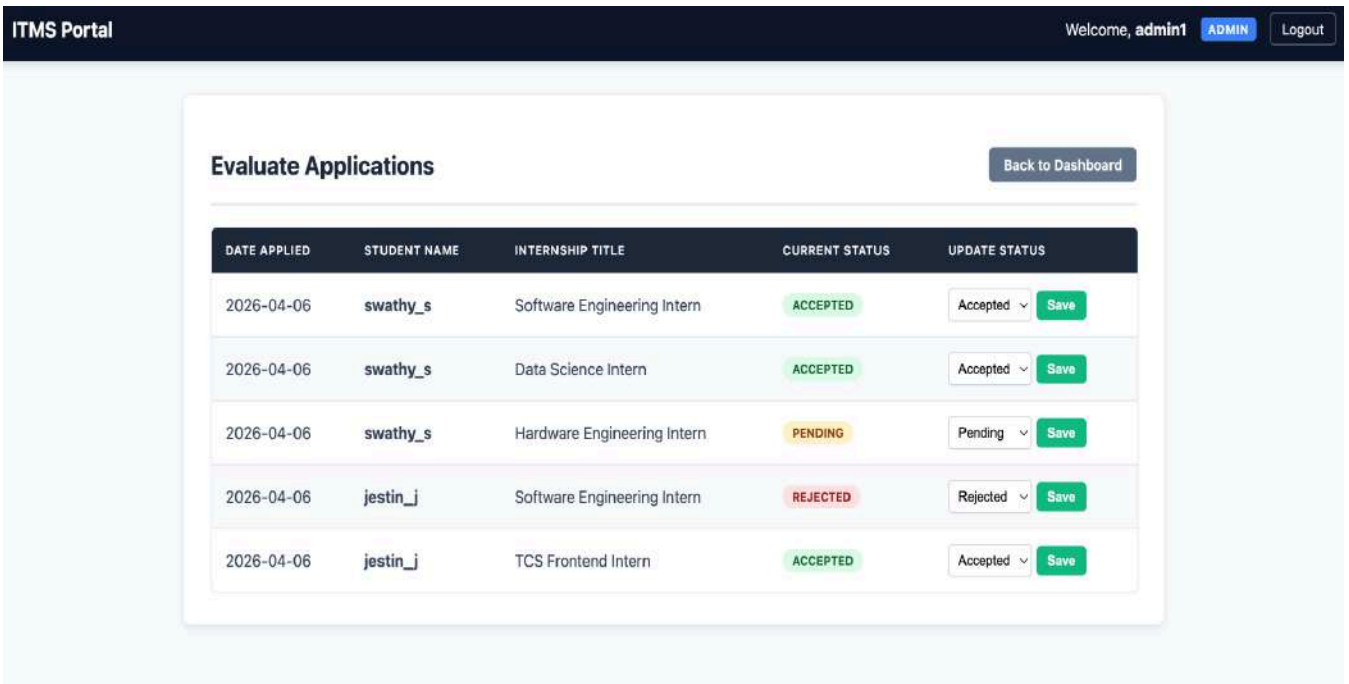
3.6 Applications

The Evaluate Applications page allows the admin to review and update the status of student internship applications.

The page displays details such as:

- Date Applied
- Student Name
- Internship Title
- Current Status

Admin can update the application status (e.g., Accepted, Rejected, Pending) and click on the “Save” button to apply the changes.



3.7 Reports

The Reports page provides an overview of internship-related statistics and analytics.

It includes details such as:

- Global Pipeline Acceptance Rate
- Applications Yield by Department
- Company Traction
- Most Popular Internships

These reports help the admin analyze system performance and student engagement.
